NOTE 1 Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The Financial Statements of the Company are presented on the basis of accounting practices prescribed or permitted by the Vermont Department of Financial Regulation, Insurance Division (the "Insurance Division").

The Insurance Division recognizes only statutory accounting practices prescribed or permitted by the State of Vermont for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under Vermont Insurance Law. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures Manual ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the Insurance Division. The Company differs from NAIC SAP under Vermont Statute, Title 8, Chapter 141 – Subchapter 4 (8 V.S.A. § 6048d) Special Purpose Financial Companies, a permitted practice issued by the Insurance Division. Under this permitted practice, is it deemed allowable that the Company treat excess of loss ("XOL") treaty as an admitted asset on its statutory financials which is otherwise disallowed by NAIC SAP.

Total Assets	\$ -	\$ 3,522,888	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$3,522,888

(3) Policy on Transfers Into and Out of Level 3

Transfers of securities among the levels occur at times and depend on the type of inputs used to determine fair value of each security.

(4) Inputs and Techniques Used for Level 2 and Level 3 Fair Values

Fair value is the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. The objective of a fair value measurement is to determine that price for each financial instrument at each measurement date. The Company met this objective using various methods of valuation that include market, income and cost approaches.

The Company categorizes its financial instruments into twelve levels of fair value hierarchy based on the priority of inputs used in determining fair value. The hierarchy defines the highest priority inputs (Level 1) as quoted prices in active markets for identical assets or liabilities. The lowest priority inputs (Level 3) are the Company's assumptions about what a market participant would use in determining fair value such as estimated future cash flows. In certain cases, a financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the financial instrument. The Company categorizes its financial assets and liabilities recorded at fair value in the consolidated balance sheet as follows:

Level 1- Quoted prices are available in active markets for identical financial instruments as of the reporting date. The Company does not adjust the quoted price for these financial instruments, even in situations where it holds a large position and a sale could reasonably impact the quoted price.

Level 2- Quoted prices in active markets of similar financial instruments, quoted prices for identical or similar financial instruments in markets that are not active, and models and other valuation methodologies using inputs other than quoted prices that are observable.

Level 3- Models and other valuation methodologies using significant inputs that are unobservable for financial instruments and include situations where there is little, if any, market activity for the financial instrument. The inputs into the determination of fair value require significant management judgement or estimation. Financial instruments that are included in Level 3 are securities for which no market activity or data exists and for which the Company used discounted expected future cash flows with its own assumptions about what a market participant would use in determining fair value.

(5) Derivative Fair Value

None at March 31, 2024.

B. The Company has no financial assets or liabilities measured and reported at estimated fair value or net asset value ("NAV") at March 31, 2024.

C. Aggregate fair value for all financial instruments and the level within the fair value hierarchy in which the fair value measurements in their entirety fall.

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Not Practicable (Carrying Value)
Assets:							
Bonds	\$ 7,844,824	\$ 8,215,610		\$ 3,063,750	\$ 4,781,074

Agreement and Plan of Merger

On May 2, 2024, the Holding Company completed the transactions contemplated by the Agreement and Plan of Merger, dated as of July 4, 2023 (the "Merger Agreement"), by and among the Holding Company, Brookfield Reinsurance Ltd., a Bermuda exempted company limited by shares ("Parent or "Brookfield Reinsurance"), Arches Merger Sub Inc., an Iowa corporation and an indirect, wholly owned subsidiary of Parent ("Merger Sub") and, solely for the purposes set forth in the Merger Agreement, Brookfield Asset Management Ltd., a company incorporated under the laws of the Province of British Columbia ("BAM"). Pursuant to the Merger Agreement, the Holding Company merged with and into Merger Sub, with the Parent surviving as a wholly owned subsidiary of Parent (the "Brookfield Merger"). At the effective time of the Brookfield Merger, each issued and outstanding share of common stock, par value \$1.00 per share, of the Holding Company was converted into the right to receive (i) \$38.85 per share in cash, without interest and (ii) the Stock Consideration equal to 0.45464 fully-paid and nonassessable shares of class A limited voting shares of BAM. Due to the recent closing of the acquisition, the complete valuation and initial purchase price accounting for the business combination is not available as of the date of release of these financial statements.

Post-Effective Merger and Redomestication

On May 7, 2024 (the "Post-Closing Effective Date"), the Holding Company completed its previously announced merger with American National Group, LLC, a Delaware limited liability company ("ANAT") and an indirect, wholly-owned subsidiary of Brookfield Reinsurance. Pursuant to the Agreement and Plan of Merger, dated as of May 7, 2024, by and among the Holding Company and ANAT (the "Post-Effective Merger Agreement"), ANAT merged with and into the Holding Company (the "Post-Effective Merger") in accordance with the Iowa Business Corporation Act (the "IBCA"), with the Holding Company surviving the Merger as an indirect wholly-owned subsidiary of Brookfield Reinsurance (such entity, the "Iowa Surviving Company").

Pursuant to a Plan of Domestication, dated as of May 7, 2024 (the "Plan of Domestication"), the Iowa Surviving Company discontinued its existence as an Iowa Corporation as provided under IBCA, including Section 931 of the IBCA, and, pursuant to the General Corporation Law of the State of Delaware (the "DGCL") including Section 388 of the DGCL, continued its existence under the DGCL as a corporation incorporated in the State of Delaware (the "Reincorporation", and such corporation, the "Delaware Surviving Company"). In connection with the Reincorporation, the Delaware Surviving Company changed its name from American Equity Investment Life Holding Company to American National Group Inc., and adopted a new certificate of incorporation (the "Certificate of Incorporation") and bylaws. The Certificate of Incorporation and bylaws of American National Group Inc., are effective as of the Post-Closing Effective Date.

NOTE 23 Reinsurance

E-F. Effective October 1, 2023, the Company entered into a coinsurance funds withheld treaty with American Equity Life Under which the Company is assuming 100% of the risk associated with both an in-force block and a flow block. Flow business will be reinsured through December 31, 2025, subject to a limit. The Company will assume the Lifetime Income Benefit Rider ("LIBR") claim payments greater than the income account value ("IAV") for underlying contracts of certain of its FIA policies. All of the policies subject to the treaty reserve require the policyholder to pay a fee for the option to exercise the LIBR benefit.

The difference between the statutory-basis reserves assumed and the initial Funds Withheld Account ("FWA") will be financed through an excess of loss XOL treaty between the Company and Canada Life Reinsurance ("CLRe") whereby CLRe will pay 100% of LIBR claims after exhaustion of the IAV and the FWA. Effective October 1, 2023, the XOL coverage will be the 20th anniversary of the effective date (October 1, 2043) with extension of up to the 25th anniversary of the effective date (October 1, 2048) subject to the XOL limit defined in the treaty. The Company has obtained a permitted practice from the Vermont Department of Financial Regulation to treat the XOL agreement as an admitted asset.

The Company considered the guidance in NAIC Statement of Statutory Accounting Principles 61R, Life and Health Reinsurance ("SSAP 61R"), Appendix A-791 Life and Health Reinsurance Agreements ("Appendix A-791") and Issue Paper 74 in evaluating whether a transfer of risk has occurred with respect to the XOL treaty. The XOL treaty is considered a stop loss or non-proportional reinsurance agreement. SSAP 61R requires the contract terms to be evaluated to assess whether significant risk is transferred to the reinsurer. Based upon the Company's analysis of the contract and expectations of future claim payments, the Company does not expect CLRe to pay claims as a result of the agreement. The nature of this XOL agreement does not meet risk transfer criterion; therefore, the Company will apply deposit accounting.
